SUPERFUND BRANCH

Dear Mr. Hofer,

Enclosed is a copy of the final Site Inspection Report for the Navy property at Northeast Cape, Saint Lawrence Island for your information.

Some of the analytical data used in this report is unvalidated due to problems with one of the analytical laboratories. We have tasked our contractor with resampling the transformer pads and the areas around them to obtain validated data on these areas. They anticipate visiting the Northeast Cape site later this summer to obtain samples and we will then revise the Site Inspection Report using the new data.

Our point of contact is Mr. Douglas Thelin at (206) 476-5775.

Sincerely

*Kevin Stigile*

Kevin W. Stigile
